## STATEMENT OF WORK (SOW)

### 1.0 INTRODUCTION

The U.S. Bankruptcy Court, Northern District of Ohio is seeking open market proposals for a maintenance and support agreement for the Court's courtroom technology systems. The courtroom technology systems are required to be fully functional during hearings in order to maintain the legal record of those hearings and as such, it is imperative the systems be maintained in working order at all times to ensure the smooth operation of the court.

### 2.0 OBJECTIVE

The maintenance agreement shall include hardware, software and configuration support for the defined locations. The systems are composed of a variety of hardware and are located in multiple, separate courtrooms. Offerors are encouraged to contact the court's technical representative for the court to conduct a site survey. The technical representative is Chase Smythe and he can be reached at 330-458-2453. **The due date for the proposal is 4:00 p.m. EDT on June 20, 2025.**

There are seven (7) courtrooms that contain a variety of courtroom technology equipment. Each location and the number of courtrooms to be covered are listed here:

John F. Seiberling U.S. Courthouse 2 South Main Street, Akron, Ohio, 44308	(1) Courtroom
Ralph Regula U.S. Courthouse 401 McKinley Avenue S.W., Canton, Ohio, 44702	(1) Courtroom
Howard M. Metzenbaum U.S. Courthouse 201 Superior Avenue, Cleveland, Ohio, 44114-1235	(2) Courtrooms
PNC Bank Building 405 Madison Avenue, 6 <sup>th</sup> Floor, Toledo, Ohio, 43604	(2) Courtrooms
Nathaniel R. Jones Federal Building and U.S. Courthouse 10 East Commerce Street, Youngstown, Ohio, 44503-1621	(1) Courtroom

### 3.0 SCOPE

Appendix A contains a listing of equipment to be covered by this maintenance agreement.

### 4.0 REQUIREMENTS

The technical proposal shall at a minimum address the following areas:

#### **Full Maintenance Contract Proposal**

The coverage period for the maintenance agreement is November 12, 2025, through November 11, 2026, with the option to renew for an additional two (2) one-year terms. The court is requesting the offeror provide a full maintenance contract on the systems. Details of the contract requirements are provided as follows:

The service hours for required maintenance coverage are 8:00 AM to 5:00 PM, Monday through Friday. The vendor shall provide a four (4) hour on-site response time in the case of emergencies and a 24-hour on-site response time for routine service calls. Emergencies are situations in which the system is non-functional for the recordings of hearings, teleconferences, audio through the sound system, video conferences, or if the control panel of the system is non-functional. For the instances described that render the system non-functional, the vendor is required to provide loaner equipment within 24 hours of problem diagnosis. Because of the criticality of these systems to the functioning of the court, the loaner equipment must remain in place while the court's equipment is out for repair. The vendor will provide repair services, configuration services, a minimum of 48 hours Help Desk support per contract year, loaner equipment for items that will be out of service due to repair, and at least one preventative maintenance visit per year for each courtroom technology system.

The proposal shall contain all the details of coverage including identification of any equipment the vendor is unable to repair or arrange for repair, cost of services done outside the business hours listed above, tasks that will be performed during preventative maintenance visits, and any contract cancellation terms and conditions. If the proposal does not include the actual costs to repair some of the equipment, the offeror must clearly define the equipment that is not included and provide a narrative on the steps the vendor will take to provide repair services for that equipment. If the offeror is unable to provide loaner equipment for any items listed on the attached inventory list, the offeror must clearly define this equipment.

The proposal shall include labor, travel expenses, meals, and any other costs associated with the repair. Payment terms shall be included in the proposal.

## **5.0 SPECIAL REQUIREMENTS/INFORMATION**

### **Past Experience**

The offeror shall provide descriptions of three previous commercial or government contracts/projects performed within three years of proposal submission. The offeror shall demonstrate that these contracts/projects were for comparable services of a similar size or scope. The following information must be submitted for each:

- Name and Description of Contract/Project
- Brief Description of the Service/Project
- Date of Contract/Project
- Offeror's Role (e.g., Prime Contractor, Subcontractor)
- Name and Address of Customer Company or Government Agency.
- Names, Addresses, and Telephone Numbers of a Technical Point of Contact for the Customer Company or Government Agency.
- Narrative Description of the Size/Scope of the Contract/Project and How It Directly Relates to the Requirements of this Solicitation.

### **Key Personnel**

Offeror shall provide a list of technicians that will be assigned to the Court's account to care for each location's systems, including the address of the technician's office location. The offeror shall provide information about each individual that will be assigned to the Court's account that includes the following information:

- Full name
- Relevant education, training, and certifications to troubleshoot and repair the specific equipment listed in Appendix A of this document
- Relevant education, training, and certifications to perform configuration and monitoring work in the appropriate vendor's tools
- A list of work experience that substantiates (by involvement and duration) the skill positions and services for which the individuals are being proposed
- A brief narrative relating work experience to the effort required herein.

Upon Court's expressed intent to award a contract, the offeror must submit all technicians' full names and social security numbers to the Court so that a background check can be completed.

## **6.0 DELIVERABLES**

Questions regarding this solicitation can be submitted via e-mail to [OHNB\\_VendorQuotes@ohnb.uscourts.gov](mailto:OHNB_VendorQuotes@ohnb.uscourts.gov). Questions will be accepted up until 48 hours prior to the due date and time for proposals.

**The due date for the proposal is 4:00 p.m. EDT on June 20, 2025.** Proposals shall be sent in PDF format via email to [OHNB\\_VendorQuotes@ohnb.uscourts.gov](mailto:OHNB_VendorQuotes@ohnb.uscourts.gov). If you do not plan to provide a proposal in response to this RFP, please send an e-mail indicating such. Solicitation questions and answers will be provided to all offerors. Telephoned questions will not be accepted.

The proposal shall be submitted in such a manner that pricing is broken down by location and by courtroom. The proposal shall clearly indicate the systems or equipment for which the offeror is not able to provide a maintenance agreement. The Court understands that not all vendors are able to support all makes and models of audio and video systems. For this reason, the Court, at its discretion, may choose to award maintenance and support contracts to multiple vendors for selected portions of the courtroom technology inventory.

## **7.0 PROPOSAL EVALUATION**

Proposals will be evaluated as follows:

- (1) Technical Considerations (all factors are of equal importance):
  - a. Offeror's capability to provide the technical support and repair services required and its corporate experience providing similar services in size, scope, and complexity to that described in this statement of work;
  - b. Quality of an offeror's past performance for services that are similar in size, scope, and complexity to that described in this statement of work; to evaluate the quality of an offeror's past performance, references will be contacted by the Court and asked the following questions: the nature of the work provided; whether services/deliverables were submitted on time and without major errors; if the contractor provided appropriately trained and skilled employees; whether the final price coincided with the proposed amount; if the contractor complied with the terms and conditions of the contract; and if the reference would use the contractor again. Offerors must receive an affirmative response for each of these questions; alternatively, references must indicate there was sufficient resolution for any negative response.

In addition, references will be asked to rate the offeror's performance (as excellent, good, marginal, or poor) regarding the quality of work completed, and the quality and experience of contractor personnel working on the project (such as professionalism, responsiveness, ability to communicate). Offerors must rate a minimum of excellent or good in these direct-service parameters.

- c. The qualifications of offeror's technical support staff, including relevant certification, and experience.

(2) Price Consideration:

Proposals will be evaluated to determine if they meet all technical requirements as defined above. Proposals which meet technical requirements will then be evaluated on the basis of price. Award will be made to the lowest priced technically acceptable proposal. Offers that are determined by the Court to be unrealistically high or low in price, in comparison to other offers or the government estimate, may be excluded from consideration.

The Court reserves the right to cancel this RFP before an award is made. The Court, at its discretion, may award a contract for all items, some of the items, or none of the items listed in this RFP.
